

**CEDAR CREEK WATER TREATMENT PLANT (WTP)**  
**January 2010**

- Project Description:** This project consists of planning, designing, permitting, and constructing a 12-MGD WTP at the Cedar Creek Reservoir site. The early portion of this project, consisting of selection of a consultant is funded through the Utilities Capital Projects Fund.
- Engineer:** TBD
- Professional Services Fee:** TBD
- Duration of Services:** Approximately 28 months
- Notice to Proceed:** TBD
- Project Complete:** 2012
- Project Manager:** Mak Yari, COG, phone # 770-538-2405 or 678-617-5461  
Jarrett Nash, COG, phone # 770-531-2662 or 678-898-7128
- Project Status:** Work associated with selection of the consultant began when a group of 9 prequalified firms were asked to submit further experience and qualification information in August 2009. On August 28, 2009, this group was pared down to 4 shortlisted participants who will participate in the final stage of the selection process.
- Community Concerns:** A temporary hold has been placed on this project pending further communication between the City and Hall County to ensure that all project details and facts have and will continue to be considered throughout the life of the project.
