

GEFA YEAR 23 SANITARY SEWER IMPROVEMENTS - CONTRACT II
January 2010

Project Description: This is a 2009/2010 project, funded through the Public Utilities Capital Projects Fund, to provide improvements to the Gainesville sanitary sewer system. When possible, these improvements will be achieved through rehabilitation methods such as slip-lining existing sewer mains and lining manholes. Those sections of sewer main that cannot be rehabilitated will be replaced.

Original Contract Amount: \$ TBD
Change Orders: \$ TBD
Adjusted Contract Amount: \$ TBD
Contract Duration: 180 Days
Notice to Proceed: TBD
Contracted Completion: TBD
Contractor: TBD
Engineer: City of Gainesville, Public Utilities Department staff
Project Manager: Joel Altherr, phone # 770-538-2477 or 678-617-9751
Project Status: Design is 80% complete with the addition of another sanitary sewer main replacement between Bradford Street and Northside Drive. This project is scheduled to go to bid in summer 2010.

Community Concerns: The majority of construction will occur in residential yards. Minimizing impact on existing landscaping is a high priority on this project.
