

P.K. DIXON – FIELD HOUSE

January 2010

Project Description:

In recent years, numerous improvements have been made to the City Park grass field (a.k.a. Bobby Gruhn Stadium). Now we are reaching to even greater heights with an addition of a first-class athletic field house, concession stand, and access road with bus parking. The long standing field house and concession stand will be demolished to make way for the new facility. The new facility will serve as a dressing room for home and visiting athletic teams in addition to housing concessions, restrooms, and providing bus parking for home and visiting teams.

Contract Amount

\$1,500,000.00 (Estimated cost for all work)

Notice to proceed:

TBD

Contract Completion:

TBD

Contractor:

TBD

Architect/Engineer:

Robertson, Loia, & Roof-Architect/Rochester & Associates-Site Improvements

Project Manager:

Barclay Fouts - phone # 770-533-5886

Project Status:

Design: Site Work Improvement Plans 100% complete and Land Disturbance Plan approved. Architectural plans 100% complete. Contractors have been pre-qualified to bid on the site improvements project when funds have been raised.

Community Concerns:

To date, a total of \$550,000 has been raised to build the facility through a collaborative partnership with the Gainesville City School System, the City of Gainesville, and the P.K. Dixon family. These three public and private partners, in addition to Gainesville High supporters everywhere, are now looking to match existing funding with an additional \$950,000 to complete Gainesville's very own field of dreams.
